Art Unit: 1712

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 4 to 10 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over WO 97/35939, as interpreted by Egami et al., the English language equivalent, for reasons of record.

This rejection relies on the rationale noted in the previous office action and as such it will not be repeated. Applicants amended claim 1 to overcome this rejection. Apparently applicants believe that the amendment to claim 1 will overcome the instant rejections as well. The Examiner does acknowledge the fact that these claims depend upon claim 1; however, they rely on claim 1 only to the extent that it further defines the coating liquid for forming a silica containing film. Claims 4 to 10 are interpreted as depending upon claim 1 only to the extent that claim 1 defines the coating liquid. These claims do not incorporate the average diameter limitation now found in claim 1 that distinguishes claim 1 from the prior art. They do not depend upon the coated substrate of claim 1. As such these rejections are maintained.

3. Claims 1 to 3 and 11 are allowed. Consistent with that noted in the previous office action, WO 97/35939 fails to teach a pore or void diameter and fail to provide any motivation to adjust the particle size such that it would fall within the claimed range.

4. Claims 12 to 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. This is consistent with that noted supra.

5. Komatsu et al. is cited as being of general interest. This fails to teach or suggest the instant claims because Komatsu et al. do not teach or suggest the incorporation of fine silica into the polysiloxane silica containing film.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday to Wednesday and Friday, 10am to 4pm.
